<p>Homeless Point in Time Count</p>	<p>recruitment for the count. Marty offered to share with the student affairs office about the possibility of CalPoly students as volunteers. Laurel explained that there are 3 types of volunteers we need: guides who are or have been homeless in this county, volunteers experienced in surveying or working with homeless clients, and other volunteers.</p> <p>Guides are given a stipend to help. Tracy recommended CalWorks clients would be a great as a volunteer pool as well. Laurel explained that there will be opportunities for training this year to survey. Volunteers could get experience surveying for 50 Now, which uses the Vulnerability Index-Services Prioritization Decision Assistance Tool.</p> <p>We are hoping for 70-100 guides, 100-200 surveyors and about 200-400 volunteers. Marty suggested that different people go around to the community chambers and service groups asking for volunteers. Laurel offered to write up a short description of the volunteer positions that could be shared with such groups. Volunteers will be asked to volunteer 1-4 mornings, depending on their availability.</p> <p>Laurel shared with the group that Santa Barbara County uses an app for the surveying that we are considering for the coming survey.</p> <p>The survey will also be used to identify veterans and veterans will be asked to sign a consent form allowing them to be referred to a Supportive Services for Veteran Families program.</p> <p>Tracy suggested there also be a consent form</p>

<p>3.2 Discussion- Homeless Management Information System (HMIS)</p>	<p>to refer persons to DSS to help with benefits.</p> <p>The committee plans on creating a recruiting committee for the volunteers along with creating a job description for each volunteer category. The PIT Count will be the last week in January 2017.</p> <p>Laurel informed the group that HUD provided an update on how communities were to calculate the performance measures in HMIS. Ivana will have more information after the national HMIS conference this week. HUD has identified certain factors that will be very important for future applications like: length of homelessness, how often people return into the system, and prevention. Ivana will provide a report at the May meeting.</p>
